

COVID VACCINE FOR KIDS

Have you considered all the facts?

ALL RISK NO GAIN

Before consenting to your child having an irreversible injection, IT IS YOUR DUTY OF CARE to familiarise yourself with the content on this flyer

With a 99.998% survival rate, children have near-zero risk of dying from Covid. Despite this:

- massive efforts are underway to ensure every child is given the Covid injection.
- The Therapeutic Goods Administration (TGA) provisionally approved the Comirnaty Paediatric (Pfizer) COVID-19 vaccine for 5 to 11-year-olds on December 5, 2021.
- This injection is still in Phase 3 trial (trial completion date 1/1/23).
- There is now talk of Moderna 'trialing' Covid injections here in babies as young as 6 months old.
- We know that the injection neither prevents transmission nor provides immunity and has been causing many deaths and adverse reactions around the world.
- No-one knows the long-term side effects.

The Center for Disease Control (CDC) figures show a huge increase in myo/peri-carditis for young people. For 16 to 17 year-old boys, there were 121 observed vs 0 to 3 expected cases! Check these figures yourself:

Expected vs. Observed reports after mRNA vaccination dose 2, 7-day risk period (N=765)*

Age group, years	Females		Males	
	Cases of myopericarditis, expected	Cases of myopericarditis, observed	Cases of myopericarditis, expected	Cases of myopericarditis, observed
12-15*	0-3	12	1-5	117
16-17*	0-2	15	0-3	121
18-24*	1-8	24	1-11	213
25-29*	1-6	16	1-9	56
30-39	2-21	10	2-19	72
40-49	2-22	22	2-19	45
50-64	4-40	15	4-35	13
65+	4-44	6	4-36	8

* As of Aug 18, 2021; assumes a 7-day observation window, with 765 of 897 reports after mRNA vaccines occurring during Days 0-6 after vaccination; counts among 12-29 years from reports meeting case definition for myopericarditis; expected estimates for females 12-29 years adjusted to reflect reduced incidence in this age group

TOGETHER WE CAN

AND NO ONE KNOWS THE LONG-TERM SIDE EFFECTS

WE NEED TO STAND UP & PROTECT OUR KIDS! THIS IS OUR JOB AS PARENTS! WE NEED TO DEFEND THEM TILL OUR LAST BREATH!

Many esteemed doctors, scientists and industry whistleblowers who are at the top of their game and were highly respected prior to Covid, have been attempting to warn humanity of the dangers of the vaccine and the narrative around it. These doctors and scientists have nothing to gain from sharing their truth - but everything to lose - funding, careers, reputations.

The Government has been doing EVERYTHING in their powers to silence them through extreme censorship and smear campaigns, speaking volumes on how desperately they don't want their agenda jeopardised.

On mainstream media we are seeing the most obscene advertising, fear-mongering campaign in the history of man, from the manipulation of numbers and non-existence of perspective giving to the suppression of important information such as other scientists views, effective medicines and actual deaths and adverse reactions as a result of the injection.

Despite the very real harm the injection is causing, the level of coercion is extreme with threats of a Vaccine Passport and mandating it in various sectors, e.g., no jab - no work/school/travel etc.

And now they come for our children!!

WE CANNOT LET THIS HAPPEN!

Coercing a population to participate in an experiment is called Government and Medical Tyranny.

Things you can do immediately:

- Educate yourself - seek out expert doctors/scientists that are providing important information - see QR code below
- Share this information with other parents
- Speak with your school principal and teachers and express your concerns. Share information with them.
- DO NOT CONSENT to them having this injection - nor to mask wearing.
- Write emails to local schools and local MP's/councilors.
- There's power in numbers - form a supportive group that can initiate action.
- Become an activist in your own school and the local community.
- Connect with other like-minded organisations.

DO YOUR HOMEWORK - Follow the QR code below that will take you directly to many esteemed doctors and scientists who are trying to share the very real dangers of this injection with the world.

Doctors & scientists include:

Dr Vladimir Zelenko	Nobel Peace Prize Nominee
Dr Michael Yeadon	Former VP & Chief Scientist of Pfizer
Professor Peter McCullough	
Dr Ryan Cole	
Professor Sucharit Bhakdi	
Luc Montagnier	Nobel Laureate
Dr Reiner Fuellmich	Lawyer
